

Member Transportation Program

NEVER MISS ANOTHER APPOINTMENT WITH SAFERIDE HEALTH

A healthier you is our goal, and it starts with attending appointments and sticking to care plans. We've partnered with SafeRide to improve your experience with our transportation benefit. With SafeRide, you can get to care more easily with flexible pre-scheduled and on-demand rides.

Health plan members need a program that improves their access to care. SafeRide offers pre-scheduled and on-demand rides via popular rideshare platforms, ambulatory NEMT vehicles, public transportation, and even gas and lodging reimbursement for long-distance needs.

We all want one thing; a reliable ride that gets us to the care most needed. On-demand rides of all types are just a few clicks away. Plus, real-time ride monitoring helps us ensure that you are picked up and dropped off on time for an ideal ride experience.

Get to care in different ways

Rideshare
