

Streamline Transportation Offerings, Improve Member Experience

Own Your Transportation Program With A Self-Managed Model Powered By SafeRide Health

The SafeRide Difference

Break from the traditional non-emergency medical transportation (NEMT) model with a **technology-first**, **versatile**, and **transparent approach**:

[LEARN MORE](#)

Take control of designing and managing your transportation benefit and gain more oversight on how your members access nonemergency medical transportation (NEMT). With SafeRide's transportation program integrated into their existing systems, health plans leveraging the SafeRide platform receive to-the-minute insights and reporting on transportation network performance, supply fulfillment, and member experience. Our customers and partners are able to maximize their transportation benefit while improving member experience and retention.

Seamless Integration

Streamline your NEMT offerings for members and gain greater visibility for your health plan by integrating SafeRide's technology powered transportation platform within existing workflows and benefits platforms. We offer multiple points of integration with an extensive library of integrations and APIs designed to enhance ride performance, on-time rates, and fulfillment rates – while reducing grievance rates.

Fully Customized

Your transportation program should be as unique as your plan and members are. SafeRide's continued innovation and robust network simplifies the setup and management of your tailored transportation program. Your plan owns member-facing touchpoints from intake to ride booking while relying on SafeRide's network management, ride monitoring, and administrative services. Leverage your in-house expertise alongside SafeRide's technology-first NEMT platform to meet members' needs with oversight over the right access points to simplify ride booking and identification of needs.

Optimized Experience

Meet your members where they are in the care continuum with on-demand or pre-scheduled rides across multiple modes of transportation from rideshare platforms to door-to-door wheelchair and gurney vehicles – reducing no-shows, cancellation rates, and improving health outcomes. With SafeRide, health plan staff and members can boost efficiency and benefit utilization, all from one central member platform.

About Saferide Health

SafeRide Health is a technology and services company dedicated to reducing barriers to care by improving the delivery of non-emergency medical transportation (NEMT) to people nationwide. SafeRide Health leverages proprietary technology and a nationwide network of vetted transportation providers to elevate human dimensions of care and close the gap between need and access for the nation's most vulnerable populations. SafeRide's scalable and intuitive platform gives payers and health systems a more intelligent way to deliver cost-effective, on-demand transportation that connects health plan members to critical healthcare services. SafeRide serves the country's largest Medicare Advantage, Medicaid, and provider programs. Learn more at www.saferidehealth.com or follow us on [LinkedIn](#).
